

Italianismi a Mannheim: la dialettica fra elementi etnici tradizionali e nuovi valori identitari

Caterina Ferrini

Studi italiani di linguistica teorica e applicata XLV, 1 (2016), pp. 181-206

ABSTRACT

The main aim of this article is to analyse the quality of the linguistic space, as to the presence of Italian and pseudo-Italian forms in Mannheim, a German city still considered as the favourite destination for Italian emigration. This study is in line with the research *Italian language abroad* by the *Centro di eccellenza per la Ricerca* of the University for Foreigners of Siena, led by Professor Massimo Vedovelli.
